PLANS FOR N. M. M. I.

ARRANGEMENTS SHAPING THEM-
SELVES FOR THE ERECTION
OF NEW BARRACKS.

TO GET THE MONFY SOON

The Territory is to Invest Twentyfive
Thousand Dollars in Military In-
stitute Bonds and Money Will Be
Here in About Sixty Days.—Plans
Are Comprehensive and Look to the
Future of the School.

Plans for the new buildings and
improvements at the New Mexico Mil-
itary Institute have been completed
and they certainly paint a rosy fu-
ture for the school. The nice part of
it is that good judgment and common
sense show plainly that the plans are
none too extensive and that they will
be in keeping with the needs of the
institution by the time the improve-
ments are secured. Meanwhile, things
are shaping themselves nicely to se-
cure the funds to put up the first of
the new buildings this summer.

J. H. Vaughn writes that he is pre-
paring to advertise the \$25,000 bond
issue which was granted the Institute
by the 34th Legislative Assembly and
which was approved by the last Con-
gress. It is understood that Governor
Curry has gained the consent of the
Secretary of the Interior to invest
\$25,000 of the Territory's funds in
these particular bonds. However, the
law requires that the treasurer adver-
tise for bids before the bonds are sold.
Information has been received from
Santa Fe to the effect that the money
will be turned over to the Board of
Regents within the month, or two
months at the latest, so that it is
safe to say that the first of the new
buildings can be started early this
summer.

Architect I. H. Rapp, of the firm of
Repp Brothers, of Trinidad, Colo.,
who spent several days here last
month studying the site of the In-
stitute, has completed plans not only
for the present needs of the Institute
but for all buildings which are antici-
pated as being needed within the
next ten or twenty years. The plan is
comprehensive and includes all de-
tails. It is so arranged that buildings
can be erected as units. If a limited
amount of money is available, a sec-
tion, or unit can be built. Then the
work can stop until other funds are
obtained. Finally the whole plan will
be executed and the whole concern,
consisting of many buildings and var-
ious parade grounds, athletic fields,
etc., will be laid out in an artistic,
organized form. The whole forty ac-
res of the Institute are accounted for
in the scheme and when completed,
this plan will give the Institute a sy-
metrical, imposing appearance, such
as many of the greater educational

institutions of the east present, in-
stead of the disorganized cluster of
buildings that now compose New Mex-
ico's greatest school.

According to the drawings of Archi-
tect Rapp, photographs of which
have been received, the new build-
ings as they go up year after year,
are to be of uniform style, patterned
after the ancient citadel of feudal
times, quite appropriate to a military
school. The new buildings are an aca-
demic hall, chapel, extensive barracks
to be built in sections, science hall,
administration building, school build-
ings, armory, mess hall, commissary
stable, power plant, etc. The principal
buildings are to surround the pa-
rade grounds and the others are to
cluster to the rear of the athletic
field.

The first building to go up will be
the new barracks. Two spans of the
proposed barracks plan will be built
of brick. They will contain 78 rooms
with bath, toilet and closets. This
building will go up this summer. The
second will be the new academic hall,
which is oped for as an improvement
for 1909. The present academic hall
will probably be used for ten years,
but according to the new plans, it
will eventually be torn down as it
stands in a place where it could not
be made to harmonize with the other
buildings that will have to be added.
In fact, the mess hall is the only build-
ing that is now standing that will
be allowed to remain when the pre-
sent elaborate plan reaches its com-
pletion.

Of course the plans now inaugu-
rated may not be realized by the pre-
sent generation, but from this time
on the building will be done in the
right line and after many years, when
the institution reaches its climax, it
will be a mark of beauty as well as
a place of use.

The new buildings that will go up
this summer will be easily fitted next
summer. In fact, as best can be seen
now, the supply of cadets will be
greater than the accommodations for
many years to come.

**KERESENE EXPLODES AND
LOSS IS \$125,000.**

New York, Feb. 12.—The explosion
of kerosene oil belonging to the Stan-
dard Oil Co., in Brooklyn today set
fire to and destroyed sheds and a two
story brick building adjoining. The
loss is \$125,000. Burning oil ran into
the river and spread along the drift
ice and presented a peculiar specta-
cle on the ice coated river. The blaz-
ing sheds nearly set fire to gas tanks
near them but they were saved after
a hard fight.

BRIDE AND GROOM LEAVE ON INTERESTING TRIP

R. C. Munro and bride, who was
Miss Dovie Goldsmith, left last night
for the home of Mr. Munro on a ranch
at the head of the Gila river, which
will be the seat of their future hap-
piness. Their trip is an interesting
one, the route leading first to Carls-
bad, and then to El Paso by way of
Pecos, and finally to Silver City,
where the rail journey stops. A sixty-
five mile horseback ride will bring
them to their home. The couple was
given a send-off by a crowd of their
friends at the train last night.

Their wedding occurred at four
o'clock Monday afternoon at the
home of the bride's father, C. C. Gold-
smith, one mile east of Roswell.
Judge J. T. Evans performed the cer-
emony, which was witnessed by a
crowd of relatives and friends. On
the night of the wedding fourteen
couples of young people assembled
at the Goldsmith home and celebrated
the event with a dance, which ex-
tended through the night. "Home
Sweet Home" being played as the sun
peeped up in the east. A sumptuous
supper was served at 12:30. The cou-
ple received many acceptable re-
minders of the happy day.

TO REMOVE STATE SUPER- INTENDENT OF INSURANCE

Albany, N. Y., Feb. 12.—Governor
Hughes today renewed to the senate
his recommendation of last year that
Otto Kelsey be removed from the of-
fice of State Superintendent of Insur-
ance on the grounds of incompeten-

cy. Last year the senate refused by
vote of 27 to 24 to remove Kelsey.
The governor bases the renewal of
his recommendation on the report of
Matthew Fleming, the governor's spe-
cial commissioner, who recently in-
vestigated the insurance department
and transmitted with his message a
copy of Fleming's report. On motion
of Senator Rains, the message, with-
out comment, was unanimously or-
dered printed, and for the present will
lie upon the table.

WEALTHY CONTRACTOR A LONG TIME A BURGLAR.

Alton, Ill., Feb. 12.—Packing a cell
in the city jail today, Henry Schnell,
a wealthy and long a respected build-
ing contractor is in custody on the
charge of burglary. He has confessed
that for years he has been entering
the stores of his neighbors at night
and stealing. He knew it was wrong
but was unable to overcome the de-
sire. His dual life was revealed by
Jeremiah Kennedy, owner of a cigar
store. Speaking of his life, Schnell
said: "I have walked the floor at
night until the beads of perspiration
rolled down my face, fighting against
the desire to steal, but I always lost." He
said he gloated over the stolen
goods for a day or two and would then
throw them away or burn them.

LIVERYMEN ARRESTED BUT ALL ARE DISMISSED

Upon complaint of W. R. Cummins,
Justice A. J. Welter yesterday issued
warrants for the arrest of Will Mil-
ler, McD. Minter, John B. Finley, An-
derson, King & Davis and J. E. Mitch-
ell, all the liverymen of Roswell, char-
ging them with violating the law by
keeping their stables open on Sunday.
All appeared before Justice Welter
this afternoon at two o'clock and af-
ter the justice had made a statement
that he did not have jurisdiction, Dis-
trict Attorney Fullen dismissed all
of them. The dismissal was not made
to clear the accused, but leaving it
possible to bring the cases before the
grand jury. Mr. Cummins stated that
if there was any doubt about livery
stables coming under the Sunday law
he did not want to prosecute the
cases.

CUMMINS ACCUSED OF SELLING ON SUNDAY.

W. R. Cummins, proprietor of the
Green Front saloon and the man who
brought about the closing of all the
cigar and candy stores and other such
places, was arrested today on a war-
rant issued yesterday evening charg-
ing him with selling merchandise over
his bar on Sunday, four weeks ago.
The complaint was made by A. V. K.
Gillespie and the case is set to come
up at two o'clock tomorrow afternoon
before Justice A. J. Welter.

Reports Orchards in Fine Shape.

John Decker left this morning for
Greenfield to prune the orchards of
A. G. Mills and Frank Talmage. He
reports that he has pruned a number
of orchards and has found all of them
to be in fine condition. Except for the
trees that have died as a result of
the heavy freeze of last April, all
give the best of prospects for a good
crop, barring a freeze this spring.

ATTEMPT TO KILL AMER- ICANS IN OLD MEXICO.

Tucson, Ariz., Feb. 12.—An attempt
to kill every American at the Santa
Rosa mine in Sonora, Mexico, twenty-
miles south of Douglas, was made
last Saturday, when Mexican employ-
ees placed sticks of dynamite under
the boarding house company's store,
and the foreman's and superintend-

ent's residences. The fuses were timed
for explosions to follow each other
in quick succession. The explosion oc-
curred at the boarding house in the
evening when all the Americans were
at supper. The house was demolished
and fifteen men were blown through
the roof, sustaining broken arms and
legs, but none were killed. The store
was demolished by another explosion.
The dynamite at the house of Fore-
man Tom Wagin failed to ignite. The
superintendent's office was demolish-
ed, but he was out of the building
at the time. Eighteen Mexicans are
under arrest.

Surprise for Mr. and Mrs. Baker.

Mr. and Mrs. C. A. Baker passed
their 11th wedding anniversary yester-
day and a party of friends called by
surprise last night to help them
celebrate the event. The entire party
went to the home of Mr. and Mrs. A.
J. Hill and after a pleasant evening
returned to the Baker home, where
they found that Misses Sadie and Mil-
dred Martin and Miss Elizabeth Yoder
had spread a tempting luncheon, of
which all partook freely. The remain-
der of the evening was spent in a so-
cial way. Others in the party were
Messrs. and Mesdames C. C. Martin
W. A. Wilson, C. D. Keyes and Mrs.
Pierce.

Plan to Raise Cantaloupes.

Several farmers in this vicinity are
discussing a proposition to raise and
ship cantaloupes on a large scale this
summer. It is well known that the
soil in this vicinity produces as fine
cantaloupes as can be found anywhere
in the world, but the trouble always
has been in the failure to properly
pick, pack and ship the fruit. The
scarcity and high price of ice has al-
so been a drawback. These difficul-
ties can be easily overcome this year,
the experience of the past doing
away with one, and the plentitude of
ice factories doing away with the
other. There is no reason why Ros-
well should not supply a large terri-
tory with cantaloupes.
